Jodi – We plan to use special account funding for this. Jesse will work with Mandi to get the spending authority for this expense.

Thanks,  
Steve

Fran/Steve,

Do you know about this request? Do we have funding for this? I wasn't sure when I looked at Mandi's budget sheet as this was not called out in there.... Thanks.

Jodi

Jodi – Jesse Aviles, the RPM for this site, assures me that he has the funding to provide for continuation of facilitation services at the VB I-70 quarterly community meetings. - Maureen

Hi Maureen,

Are there monies approved in the budget for this work?

Jodi

Jodi – The new national ADR services contract has been awarded to Eastern Research Group (they go by ERG). The VB I-70 project is ready to be funded in the amount of \$11,558 (the total amount of estimated costs in the coming year) so a new task order can be set up.

I've attached the PR preparation tip sheet, SOW and IGCE for you. The SOW and IGCE need to be included with the PR as separate attachments. You already have hard copies of my COR certification documents and the Vulnerability Form. Those can be scanned and attached as one document. If you don't have those hard copies anymore, just let me know and I'll bring fresh copies by your desk.

EPA HQ/CPRC is asking that we get this PR to them by COB Friday, if at all possible.

I appreciate the work you are doing on this, and I know all of the teams we are working with do too. We couldn't do it without you!
